Golden, CO 80403-8200

**RE: Reconnaissance Level Characterization Report (RLCR) for Building 439 – Concurrence**

Dear Mr. Legare:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division has reviewed the RLCR for Building 439; Revision 0 dated February 3, 2005. We received this RLCR on February 11, 2005. Based on the information contained in the RLCR, we are hereby concurring with the determination that Building 439 is a Type 1 Facility.

Although we have concurred with the Type 1 determination for B439, as stated in this RLCR, there remains possible concerns for Under Building Contamination since B439 is identified as having UBC concerns. As such, during the demolition of the slab, specific attention needs to be paid to the underside of the slab, with appropriate ER and RCT coverage. The results of the ER observations (including any sampling results) and RCT surveys/measurements of the underside of the slab should be included in the Closeout Report for B439.

If you have any questions regarding this correspondence please contact me at (303) 692-3367 or David Kruchek at (303) 692-3328.

Sincerely,

Steven H. Gunderson  
RFCA Project Coordinator
